React, Redux, HTML, CSS, SCSS, Javascript, Node.js, Express, MongoDB, WordPress, Git, Github, Figma, Photoshop.

## PROJECTS

### FULL STACK DEVELOPER - LOST PETS

Dec 2021 - Feb 2022.

*Designed and created an app to search lost and found pets, includes user and post creations, an interactive map, filters by race, date and distance among others.*

*Developed the front-end with HTML, vanilla Javascript, CSS and Bootstrap.*

*Back-end composed of API with RESTful standards, NodeJs with express, MongoDB, using Google MAPS and facebook API for the map and login respectively, and Cloudinary as image hosting service.*

### FULL STACK DEVELOPER - PORTFOLIO

Jun 2022.

*Design and developed my personal portfolio using HTML, vanilla Javascript and SCSS.*
